PROFILE

Game programmer specialising in VR and console games, at Resolution Games since 2022. I love crafting systems, from engaging AI and fun combat mechanics to interactive UI. I have shipped Demeo and Battlemarked in Unity, focusing on VR, hand tracking and platform implementation for Meta Quest and PlayStation 5.

EXPERIENCE

Game Programmer
2022 – Present

Resolution Games · Stockholm

Demeo x Dungeons & Dragons: Battlemarked Turn-based fantasy adventure
OpenXR hand tracking, shared spatial anchors, networking, loading screens, settings and tilt. Took over the PlayStation 5 version through certification for DLC and localisations.

Demeo Cooperative tabletop adventure
PlayStation 5 and PS VR2 launch port, mid-level auto saves for singleplayer and multiplayer, hand tracking after release, tilt controls, mixed reality and spatial anchors.

Demeo Battles Competitive turn-based strategy
Brought mixed reality, hand tracking and tilt over from Demeo, and made the tutorial fully playable with hand tracking.

GrimKeep Singleplayer roguelite dice-builder
PlayStation 5 platform implementation.

Programmer Intern
2021 – 2022

Conifer Games · Stockholm

- Helped build a prototype to test new gameplay ideas.
- Implemented UI, gameplay functionality and AI.

SELECTED GAME PROJECTS

Team projects at Futuregames, 2019 – 2021

Mare Nostrum Strategy · C++ / SFML · 3 devs · 10 weeks — 2021
Most of the UI, realm name algorithm and army pathfinding.
